PROGRAM INTRODUCTION

Dear Consumers;

The IHSS Public Authority Advisory Board welcomes all new IHSS consumers, all current IHSS consumers, and all consumer family members and friends to the IHSS Program. We understand how complicated the IHSS system can be and are hopeful that this Consumer Handbook, along with the Consumer Training Materials offered by the IHSS Public Authority, will answer many of your questions and concerns.

The Public Authority Advisory Board feels strongly that a knowledgeable consumer can advocate for themselves, or with the help of family and friends, to effectively utilize the IHSS system to stay safely and comfortably in their own homes. This Consumer Handbook has the goal of helping you understand the IHSS system, and how you can assist in making it work for you.

The Public Authority Advisory Board makes recommendations to the Public Authority Governing Body, (the Santa Clara County Board of Supervisors), on all issues relating to IHSS and personal care / home care assistance. We are in essence the voice of the consumer and take our role as consumer advocates very seriously. We welcome your comments, suggestions and input regarding the IHSS system in Santa Clara County.

Enjoy the Consumer Handbook and we look forward to meeting your training needs in various ways throughout the year.

Sincerely

Janie Whiteford
Advisory Board Member

What is IHSS?

In-Home-Supportive Services or IHSS is an alternative to out of home care/institutional placement. IHSS is a program designed to assist elderly, blind or disabled people to remain in their own homes when they are no longer able to fully care for themselves or handle routine household tasks. The program pays for a wide variety of services from household chores to personal care, enabling the individual to live safely at home while encouraging independence.

IHSS allows you to remain in control of your situation and your care needs by providing hourly wages to in-home care providers of your choosing. With the IHSS Program you, the consumer, are the person responsible for hiring a care provider to work for you, training them in the way you want tasks to be completed, supervising the care provider's work, and firing the care provider if the services are not performed according to your expectations. You also have the option to designate an authorized representative to speak for you and help you make decisions regarding your care provider.

The IHSS Public Authority was created by local ordinance in 1996 by the Santa Clara County Board of Supervisors. In Santa Clara County, services are provided through an effective partnership between the County and [Sourcewise](#). To clarify this unique model of service administration, the IHSS Public Authority in Santa Clara County was rebranded as Public Authority Services by Sourcewise. This partnership enables consumers and providers of IHSS to experience enhanced services beginning in 1999 when Public Authority Services was founded.

Benefits of allowing IHSS to assist you are:

- It allows you more independence and freedom
- You are able to actively pursue your goals and interests
- In many cases you will experience an improvement in your overall quality of life.
